Finding Nemo

Happy Father's Day

to all our Dads and special care givers. Take this opportunity to reflect on the important people in our lives and celebrate with them.

Soaring and Exploring Revolutionary Academics

This month is researching science and weather. We will explore around what a meteorologist is and does. Our classes will have fun with clouds and science crafts like storm jars and sun catchers.

Heartfelt Thoughts

It's time to say hello to summer and longer days. June is filled with singing and preparing for, a well deserved, Kindergarten graduation celebration. Through our Global Trotters Program our preschoolers will be traveling to three islands this summer. Our first stop is Costa Rica. Our children learn so much through our travel program. It ignites a child's sense of curiosity, imagination and adventure.

Summer with PMP

Camp PMP, held at Precious Memories Place, for children ages 3-5 is a camp that expands our school year curriculum into 3 months of continuous learning. Our focus is a hands on, up close experience to the world we live in. It's the ease of the summer enhanced with inquiring minds.

Neighbors and Nature Camp, held at DPNC Coogan farm, for the children entering Kindergarten through age 12.. There is hiking, fort making, learning about reptiles, arts and crafts, outdoor survival skills and much more. Nature based fun in the sun!

Spirit Week 6/20-6/24

Monday: Crazy Hair/Hat Day
Tuesday: Sports Day
Wednesday: Rainbow Day
Thursday: Pajama Day
Friday: Disney Day

The best way to predict the future is to create it.
